

Cognition and Cognitive Neuroscience (CCN) Concentration:

Course Requirements:

Students are required to take 9 credit hours of classes per semester.

Students are required to take the following courses:

- Two statistics courses (PSYC 607, 671; 6 hours)
- Five cognitive psychology/cognitive neuroscience courses (PSYC 603- Motivation and Cognitive Processes, plus four other classes such as the ones listed below; 18 hours)
- Two courses outside of CCN (6 hours), either in another area of psychology or in another department – departmental requirement
- Professional Seminar in Cognition and Cognitive Neuroscience** (PSYC 690 “Cognoscenti”, 2 hours)
- PSYC 691 seminar (1 hour; first semester of Year 1)

**** Students are required to attend the weekly Professional Seminar (PSYC 690) give one oral presentation each year in the seminar.**

As part of the required five CCN psychology courses, it is strongly recommended that PSYC 603 be taken in the first semester of Year 1.
